## Fast, Easy Installation

The SunCooler series of products can be easily installed by any professional HVAC, roofing or maintenance technician – in as little as 30 minutes when a roof curb is present. No training, electrical certification or electrical service is required. SunCooler models may be controlled using a remote wall mounted wireless, battery-less control switch.

## Manufacturer's Limited Warranty

NWREC warrants the SunCooler products to be free from defects in workmanship and materials for FIVE (5) years commencing on the date of shipment from the manufacturer. The PV module/s are warranted for a period of 25 years with a linear performance guarantee.
